Summary

• Pursuing MCA at JECRC University, specializing in Data Science and Analysis. • BCA graduate with expertise in web development and Java programming. Demonstrated proficiency in critical thinking, communication, and problem-solving through hands-on projects and internships. • Seeking challenging roles in data science and data analysis to leverage my skills and drive organizational success. Dedicated to continuous learning and growth in a dynamic environment. • Skilled in web development, Java programming, and eager to apply data science techniques for actionable insights and strategic decision-making.

Experience

COSMIC365.AI | Jaipur, Rajasthan

Associate Intern | 04/2024 - 06/2024

- Analyzed and interpreted complex datasets to support product strategy and development.
- Assisted in the design and implementation of data-driven solutions for project management and quality assurance.
- Conducted data preprocessing and validation to ensure high-quality data for analysis.
- Collaborated with cross-functional teams to deliver actionable insights and reports.

WhiteHat Jr Remote

Intern | 05/2021 - 09/2021

• During my 4-month internship in user engagement and technical support, I gained experience using help desk software and tracking customer issues. I also assisted in analyzing user feedback and proposing solutions for improving the product. • As an intern in user engagement and technical support, I worked closely with customers to resolve technical issues. I gained experience in customer service, communication, and problem-solving. I also collaborated with cross-functional teams to implement product improvements based on user feedback.
